

Curtain and Track Installation Guide

- a. Curtain tracks
- b. Face fit brackets
- c. Bracket caps
- d. Curtain/s
- e. Screws

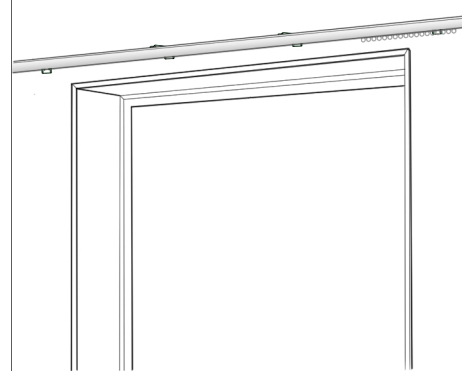

1

Step 1: Place the curtain brackets evenly across the width of the window for a pair of curtains or offset the additional 20% to the left or right hand side for a single curtain.

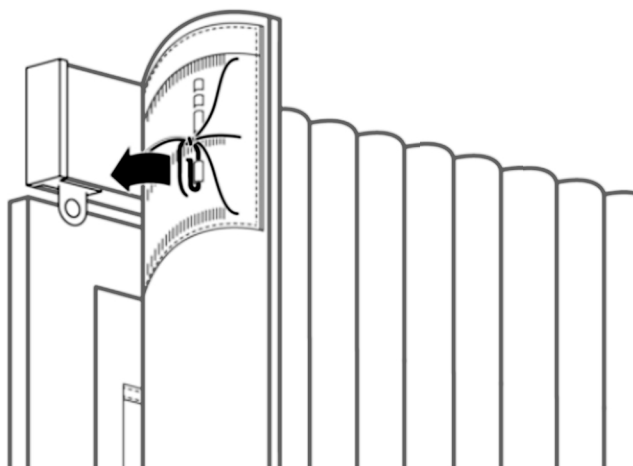

2

Step 2: Insert the back of the track between the bracket clamps and tighten the screws to hold the track in place.

3

Step 3: Hook the start of your curtain to the end cap. Note: for a pair of curtains you will have to do this at both ends of the track.

4

Step 4: Now place the curtain hooks in the track glides. You can watch our video for more instructions on how to install curtains and tracks.
